

# STONY PLAIN SUN.

VOLUME TWELVE.

STONY PLAIN, ALBERTA THURSDAY, OCT. 1, 1931

Whole Number 574

## Here and There

Ontario gold production for the half year to June 30 reached \$20,408,185, the greatest on record. Indications are that the output for the full year 1931 will be well over \$41,000,000 in value.

Working at the rate of a mile a day and employing a daily average of 450 men, completion of rockblasting in the Ontario district from Windsor to Smith's Falls on the Canadian Pacific tracks was announced recently.

Canadian hens are working much harder than their ancestors of ten years ago. In 1920, statistics show that 6010 birds produced an average of 122.1 eggs apiece. This average rose steadily until in 1920 it was 175 eggs per bird.

New Brunswick moose and deer will make their debut on the talkie screen this fall while the famous moose calls of New Brunswick guides will be recorded in sound for the edification of millions of patrons in thousands of theatres across the continent.

The site of the first cheese factory in Canada, located in Oxford County, Ontario, will be marked with a cairn as an historic site. There are now more than 2,800 factories in Canada making butter or cheese, and the cheese production exceeds 150,000,000 pounds yearly.

"Generally satisfactory," is the comment on wheat grading in the Prairie Provinces, according to reports coming in from the Agricultural Department of the Canadian Pacific Railway at Winnipeg. Wheat cutting in the West was virtually completed by the middle of September and rather more than half of it was threshed at that time.

Playing spectacular golf, F. G. Hollist, of the Lambton Club, Toronto, defeated Philip Farley, Ontario amateur champion, in the finals of the Prince of Wales Trophy, played at the Banff Springs Golf Course in September. Sixteen players from all over Canada and the United States, qualified for the title fight.

Award of three scholarships at McGill University to minor sons of Canadian Pacific employees has been made to M. M. Madge, D. K. Gowan and Keith W. Shaw. The scholarships provide for five years' tuition in architecture and chemical engineering, all fees being met until the recipients have taken their degrees as Bachelors of Science.

"We are coming to realize that most of our national problems have an international background and can only be solved by international co-operation," declared Hon. Vincent Massey, former Canadian Minister at Washington when sailing recently on the Empress of Canada at the head of the Canadian delegation to the forthcoming conference of the Institute of Pacific Relations at Hangchow, China.

"Jim" McKenna, dean of passenger travelling agents and friend of presidential passengers and porters from Saint John to Victoria and from Montreal to New Orleans, with over 4,000,000 miles of railway travel to his credit, died recently at Quebec in his 79th year. His intimate knowledge of the Chinese whom he accompanied across Canada earned him the sobriquet of the "Chinese Ambassador" and "The Mandarin."

## Draves-Miller.

The Reform church at Glory Hills was filled to capacity on Sunday afternoon, Sept. 27, to witness the ceremony of marriage, when Miss Anna Mary Miller became the bride of Richard Robert Draves. The bride was given in marriage by her father, Mr Geo. Miller.

The bride was assisted by Miss Katie Miller, her sister, as bridesmaid; while Mr Jac Miller, brother to the bride, was groomsmen.

Rev C H Reppert performed the ceremony. At the close of the service at the church, the happy couple and their friends drove to the home of the bride's parents, Mr and Mrs George Miller, at Glory Hills, where a carefully-prepared repast was awaiting their onslaught. Dancing and other amusements helped to make a very pleasant evening.

Stony Plain was well represented at the ceremony and festivities.

## Bettering the Beach Road

As a measure of relief in giving work to the unemployed, the grading of the Barrie Beach road, a 2 mile stretch connecting the Beach with the Jasper Highway, was begun last week. If the grading is completed on schedule, the graveling of this piece of road will commence.

The sums of money formerly spent on this piece of work were one of the thorny points upon which evidence was taken when the investigation by His Honor Justice Tweedie was recently held into the handling of affairs in the M D of Inga. Authority for the resumption of the work was given by Inga Councillors at a recent meeting, when it was decided to take advantage of the Government's relief plans. It was arranged that the residents of the district are to share in the labor to the amount of sixty per cent.

The Western Canada Construction Co. has the contract for the work, and has crews at work at several different points.

## The Wise Merchant.

This being usually the open season for burglaries of country stores, the wise merchant will not take a chance by leaving much cash in his store safe at night. One local business man has beat the stray burglar to it by hanging this sign over his big iron box: "Believe it or not: This safe is not locked!"

## Daily U. F. A. Broadcasts.

The attention of Alberta farmers and farm women is called to the daily broadcasts by the U. F. A. Cooperative Committee over station CFAC at 12:25 noon. All who have receiving sets are invited to listen in, as by doing so they may learn where important savings may be effected in their purchases of various bulk commodities.

### Meeting The Challenge

In these troublesome times, when economic conditions the world over are causing acute suffering, any line of reasoning that will tend to stiffen the morale, is surely welcome. Some comfort, perhaps, may be drawn from the fact that we in Canada are doubtless less affected than other countries, and if we can credit the utterances of many well-informed writers and public speakers, we shall be among the first of the nations to emerge from this depression. We are no doubt now paying the price of rather extravagant living, and the present is a very good time to take stock and to reconstruct our ideas in conformity with the fixed laws of economics. And we must consider not only material things, but also the matter of character and the true worth of the individual. The present is surely a testing time. Roy L. Smith, contributing a most helpful article in a recent issue of *The Rotarian*, says that while the financial conditions have upset our economic structure, the real values of life are unshaken and solid. We cannot do better than to quote his article in full, which is as follows:

"We have passed through a panic suffered from a crash on the stock market and are now more than half way through the depression, and I am still rich.

"It may be true that I have much less to live on than I had a year ago, but it is certainly true that I have just as much as ever to live for. The real values of life are unshaken and solid.

"The stock crash cost us much more than the financial pages of the daily papers. The market failed but nothing else did. Prices went down, but not one acre lost its fertility and all the electrons, protons and other waves went on working in their accustomed ways.

"When the depression came I was compelled to take an invoice and soon discovered that I was still rich. All my capacity for the enjoyment of life was intact.

"The depression has not lowered the value of a single friendship. Neighbors still greet us in the same old, cordial way, business associates believe us and our sons hold us in high respect. The wife's welcome at the close of the day has not depreciated in the least and our daughters continue to lavish their affection upon us with the same old extravagance.

"My faith in the goodness of the universe is unimpaired. By that faith I am emboldened as I face defeat and despair. The prayers my mother taught me and the faith in God instilled in me by a devout father remain as priceless treasures no depression can touch.

"No nation becomes great by becoming rich. We may lose some beautiful things, but we have lost none of the best of life. The most degrading poverty is that which results from killing the spirit that the body may be served.

"This depression has cost us some of the things we created but it has robbed us of none of our power to create. We may lose some beautiful things, but we have lost none of the best of life. The most degrading poverty is that which results from killing the spirit that the body may be served.

"The last six months have been for many men a thrilling spiritual adventure through which they have discovered their real wealth. Bereft of dividends and profits they are discovering the sustaining powers of strong religious faith: the abiding value of courage, heroism, honor, clarity and trustworthiness.

"A financial crisis can wipe out profits and bring business to a standstill, but character is beyond its reach. It can rob us of all we have, but it cannot affect what we are.

"The investments we made in ambitious youth, hospitals, crippled children's camps, colleges and service institutions go on paying dividends. The deepest satisfactions of life—those which come from sharing and serving—remain secure.

"I am still rich because I am independently rich—none of my wealth depends upon business conditions or market reports."

#### Tar Sand Development

The tar sand development at Fort McMurray is proceeding satisfactorily, according to Dr. S. C. Ellis, mining engineer of the Dominion Department of Mines, who passed through Edmonton, the other day, from Waterways, on a routine business trip to Ottawa. Dr. Ellis, who has been conducting the tar sand development at McMurray for the past year, will shortly return to Edmonton and Fort McMurray.

A loud speaker that magnifies the human voice about 2,000,000 times, was successfully tested in London.

The forests of Canada are its second most important resource, exceeded in actual value only by farm products.

### Dysentery Is a Very Dangerous Bowel Complaint

Mrs. E. M. Ward, 687 Ave. H. South, Saskatoon, Sask., writes: "When my husband was in France he took dysentery, and was in hospital over a year. Ever since he came back he has had the attacks three or four times a year. I cannot emphasize the good Dr. Fowler's Extract of Wild Strawberry has done for him. He generally takes a few doses and gets relief in a few hours. 'I cannot speak too highly of your excellent remedy, and you may be sure we are never without a bottle of it in the house.'"

#### Roads For Airplanes

Beam Like Searchlight Enables Pilots To Keep Their Bearings

In the near future aeroplanes may use roads or tracks just as motor-cars and railway trains do today. The aeroplanes would be not be visible, but they will be there. They will consist of beams of unbroken rays focused from one point to another just like the beam of a gigantic searchlight. An experiment with this new method of flying was made recently. At Manchester and Bristol transmitting stations are erected which send out wireless waves focused into a beam some four miles in width. The aeroplanes contain receiving apparatus which indicates to the pilot any straying from his proper course. Starting from Bristol, an aeroplane can be certain of making its way direct to Manchester in the blackest darkness or the thickest fog. All that the pilot has to do is keep in the beam and to fly straight on. It will no longer be possible for pilots to lose their bearings.

#### NEIGHBORS TALK

"I am employed in a theatre and it is a problem to make ends meet, as I help support my mother and sisters. I like to have my hair dyed very much to spend on clothes. To give the appearance of variety to my slender wardrobe I change the colour of a dress or stockings as soon as the things become faded. I always use Diamond Dyes for my work—using them as dyes for dresses and as tints for stockings. I have always gotten splendid results. I think my neighbors talk about the great number of new things I have."

"I learned about Diamond Dyes from our wardrobe mistress. She says she has tried all the dyes on the market but none do such splendid work and are so easy to use as Diamond Dyes. I understand they are the world's most popular dyes and they deserve to be."

L.P., Montreal.

#### Telephone Line Completed

Flin Flon Now Has Regular Long Distance Service

The telephone line to Flin Flon, which will link the northern mining town with the outside world by regular long distance telephone circuit, has been joined by the "copper link."

For two months workmen have been engaged in erection of a pole line to the north, and final details of the project have been completed. Local people who spoke to Flin Flon citizens talked over the standard No. 10 copper wire. The cut-in was made without a hitch and connections were perfect.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their misery, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powder is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

#### Home-Grown Fruits

Demand in Winnipeg This Season Has Exceeded the Supply

The demand for home-grown small fruits in Winnipeg has been so brisk this year that dealers have not been able to meet all the requirements of patrons—this, despite the fact that growers within a radius of fifty miles of the city have made heavier shipments this year than at any time during the past five years.

Awful Asthma Attacks. Is there a remedy of it in the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy rests its reputation upon what it has done for others. It has a truly wonderful record, covering years and years of success in almost every part of this continent, and even beyond the seas.

#### Aid For Orientals

Registration of Orientals for unemployment relief aid in the province British Columbia is to be permitted, it was stated at the legislative building. The question was considered at a meeting of the executive council and it was agreed that the Orientals out of work should share in unemployment aid.

Small Boy (who has been scolded by his mother): "I say, dad, we'd have had a fine time doing as we liked if you hadn't married mother."

#### New Canadian Stamps

Colour Had To Be Changed—Postage Was Increased—

The increase in Canadian postage rates necessitated the changing in colour of the Canadian stamps. According to the regulations of the International Postal Union, of which the Dominion is a member, the stamp which will prepay an ordinary letter in each country must be red in colour. For that reason the two-cent Canadian stamp was red. When the rate was advanced to three cents, the three-cent stamp did the work formerly done by the two-cent, and therefore the new three-cent stamp was coloured red, the Canadian three-cent stamp corresponding to the United States two-cent and the British penny stamp. This facilitates the work of postal clerks, as they need only to look at the colour of the stamp to ascertain if the letter is sufficiently prepaid. Of course, during the present transition period, when there are some red two-cent and red three-cent stamps being used, the clerks are obliged to examine the letters to make sure that the three and not the two-cent stamp has been used. This change in colours necessitated a new colour for the two-cent stamp and that stamp has been issued as a brown stamp. It will be recalled that during the war, when postage rates were increased, there was a brown two-cent stamp with the "I.T.C." surcharge, and later a three-cent brown stamp was issued.

#### Reject Freight Rate Appeal

Board Of Railway Commissioners Hand Down Judgment In Coast Case

The Board of Railway Commissioners in a judgment handed down dismissed the application of the corporation of the City of Victoria together with the Panama Pacific Grain Terminals, Limited, for an export rate on grain by the Canadian Pacific Railways equal to that of the City of Vancouver.

The charge that the existing rates were discriminatory, upon which the applicant based its case, was unfounded. C. O. Fullerton, chief commissioner, stated in handing down his decision which was unanimously concurred with by the other two members of the board.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if plagued with worms. Use Mother Graves' Worm Extirminator.

#### Sitka Spruce

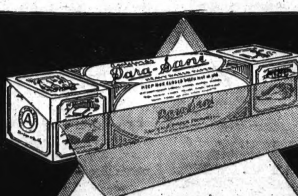

Canada's average annual cut of Sitka spruce is approximately 90,000,000 board feet, of which a portion is used in the manufacture of pulp and paper. The trees are prolific in British Columbia where they grow to a great height and size.

## Growth Of Population Of Western Provinces Reveals Developments Of Last Decade

Canada, like the rest of the world, is passing through a troublous period. The collapse of grain prices, and the drought that afflicted a large portion of the prairie provinces during the spring and early summer, have checked her prosperity, and her statements are at the moment wrestling with the problems, to them happily unfamiliar, of wide-spread destitution and unemployment in the West. Immigration naturally has had to be checked, and for a time Canada has to think more of preserving and consolidating the property of her existing population than of stimulating its growth. With her vast territory, however, and her immense natural resources this can only be a passing phase: it does not make it any the less true that the more Canadians the better, nor will it decrease the satisfaction which every Canadian will feel over the fact that the population of the Dominion has almost doubled itself since 1901.

Only the preliminary returns (of the census) have so far been published, and few details are available, but it is plain that the centre of population continues to move westward. Toronto, it is true, shows an increase of over twenty per cent. in the ten years, and is now a city of 497,582 inhabitants; but in Vancouver, which has now a population of nearly a quarter-million, the increase has been over fifty per cent.; and Winnipeg shows a growth from 179,087 to 217,587. The amazing development of the new Canada west of the lakes is reflected in the expansion of the prairie capital from a tiny settlement of 241 souls in 1871, to the fine city which Winnipeg is today, with its spacious boulevards, palatial public buildings, and its university attended by over 2,000 students.

It is typical of the new Canada that the city is laid out and equipped on a scale proportioned rather to the great and prosperous future which its planners confidently expected than to actual needs of the immediate present. No 'r' that the staple product of the prairies can find buyers only at unremunerative prices, the burden of this lavish capital equipment is severely felt. The farmers, upon whose prosperity is built the prosperity of the West, and, indeed, of the whole of Canada, are feeling the pinch of bad times, and despondent voices are heard regretting that the richest income of the country has been so heavily mortgaged. But that—like the depression—is a temporary phenomenon. The Western Provinces will recover from their present setback, and may well be the more prosperous in the end for the lessons learned during their time of adversity. —London Times.

### Revenue From Poultry

Value Of Eggs Produced Last Year Estimated At \$81,000,000

On 70,000 Alberta farms, with an average of 80 hens, there were produced last year 31,000,000 dozen eggs and exported 122 carloads, stated H. A. Craig, deputy minister of agriculture, during an address at the opening meeting of the season of the Edmonton Poultry and Poultry Stock Association.

Mr. Craig stated that figures received from a reliable source showed that poultry provided a very good part of Canadian farm revenue, for in 1920 eggs alone reached the grand total of \$81,000,000.

The original home of Limburger cheese was Belgium.

"Baby" automobiles are popular in India this season.

Shipwrecked man (listening to wireless): "Professor Fleyler will now lecture on 'Rocks which disappear suddenly'." —Buenos Aires, Madrid.

W. N. U. 1009

### Early Snow Needed

Falling Before Ground Is Frozen Assists Greatly In Storing Moisture

There probably never was a time in the history of agriculture in the Prairies when early snow was so much needed as at the present time. The extent to which snow contributes moisture to the fields depends directly on the time at which it falls, according to W. D. Albright, Superintendent of the Dominion Experimental Sub-station at Beaveridge, Alberta. When a thick coat of snow falls of unfrozen ground a great deal of it melts and becomes established as soil moisture. The extent to which soil can be kept unfrozen and permeable depends entirely upon natural developments. If the snow falls early to a good depth it will ensure a considerable supply of moisture in the soil, while it rains or sleet permeate the surface, soil and freeze they are likely to form a solid coating which will leave the ground almost as dry in the spring next year as it is now.

### Fall Rye Distribution

Saskatchewan Department Of Agriculture Being Flooded With Orders

Orders for nearly 100,000 bushels of fall rye have been received to date by the Saskatchewan Department of Agriculture. The seed has been purchased by the Government and shipped to Moose Jaw where a considerable quantity already has been distributed to farmers. The plant is operating twenty-four hours a day in order that supplies may be delivered in good time for seeding. Provisions of The Temporary Seed Grain Act apply.

Doctor: "You have influenza and must keep to your room."  
New-rip: "Which? I have 25 rooms in this house."

### Russian Wheat Lower Grade Than Canada

Crop From Western Prairies Is Of Better Quality

A special dispatch to the Toronto Globe from Ottawa says:

A report just completed by the agricultural statistics branch of the Bureau of Statistics confirms the Chicago wheat pit report that the United States and Canada control a large portion of the world's visible supply of high-grade wheat.

According to information available here, there will be an exportable surplus of only from 30,000,000 to 100,000,000 bushels of wheat in Russia this year, but it will not grade as high as the Canadian wheat.

As to Argentina, it is too early to tell what the harvest will be, as the crop there is only as far advanced as the Canadian crop would be in June. The Australian crop is just through the ground.

Up to the present time, Canada has made no arrangements for the marketing of wheat in China, but the United States is disposing of some cargoes in the Orient by the arrangement of credits through the United States Government.

Hon. Herbert M. Marshall, Canadian Minister to Tokyo, visited China some months ago, with the object of securing a market for Canadian wheat but the situation was such that no sales were arranged at that time.

### Candles Still Popular

Have Average Estimated Value Of Eighteen Million Dollars Yearly

Candles, the world's oldest lighting device, constitute an item of about 35 million pounds with an average estimated value of 18 million dollars in the annual export trade of the world, says the Department of Commerce. Great Britain is the largest exporter of candles, and characteristic of the world trade in that commodity, showed a decline in exports during 1920, when the total was 10,743,040 pounds. France took second place with exports of 4,404,350 pounds. Belgium was third with 3,830,572 pounds. The United States exported 1,066,354 pounds during the year.

Scotland now has more bagpipe players than ever before.

## Fabulous Riches To Be Found When Gold Fields Of Cariboo Country Are Properly Developed

### Child Hygiene Work

In Canada Praised

American Health Officers Thankful For Inspiration And Ideas Given

After a day in Montreal well filled with meetings and discussion, the health officers section, child hygiene section, American Association of School Physicians and the International Society of Medical Health Officers delegates gathered for a joint dinner under the presidency of Dr. Hugh S. Cummings, president of the American Public Health Association.

Dr. William F. Snow, general director, American Social Hygiene Association, New York, brought to Canadian members, and collaborating agencies, the findings of American health officers and other officials and workers in the field of child hygiene, for the inspiration and ideas they had gained from Canada's "forward looking" protection and conservation policies.

Dr. Kendall Emerson, New York, addressing the dinner, said he believed that 50 per cent. of the surgery of the past 25 years could have been avoided, and that if left undone it would have meant healing and recovery, in the majority of cases.

### Controversy Almost Over

One Act In Drama Of Hudson Bay Route Ended

Complete satisfaction with Churchill Harbour and the loading of the test shipment of grain was expressed by Hon. T. G. Murphy, Minister of the Interior, and Manitoba's representative in the federal cabinet, who arrived here after attending the loading of the first two grain boats out of Manitoba's new ocean port.

With the completion of the railway and the successful test of the harbour, one act in the drama of the Hudson Bay route is ended, Mr. Murphy said, and a controversy extending over half a century is about to be settled.

Gold, to the value of hundreds of millions of dollars is still to be found in the Cariboo country, according to Deak B. W. Brock, of the University of British Columbia, who recently conducted a survey of the mineral resources of that section for the provincial government.

According to this report, evidence is accumulating to indicate that in the day when the Cariboo gold fields lure fortune-seekers from all quarters of the globe more than a century ago, the surface of the district's mineral wealth was barely scratched. Intensive development and more modern methods may be expected, to yield a vast treasure of gold far greater than the records of the past.

The Cariboo, however, is only one of several promising placer gold regions according to a special bulletin issued by Hon. W. A. McKenzie, Minister of Mines.

An increase in the production of placer gold in British Columbia was recorded last year, this bulletin states, and Mr. McKenzie estimates that there will be a further increase this year. Preliminary figures show that larger amounts of gold are being recovered in the Atlin country. And prospectors are doing well with pan and rocker along the Fraser, Thompson, Similkameen and other rivers. Bars which have been inactive for years have been developed and in the old placer camps many old diggers are being re-worked. This is due partly to unemployment in other fields which had attracted men to the mines and partly to the strong position of gold in the world's markets.

Gold scales, which for 20 years have been accumulating cobwebs in basements and warehouses, are restored to their former conspicuous places on the counters of Cariboo general stores for the accommodation of bar miners.

There are more prospectors at present working on the river bars and in the hills of Cariboo than at any other time in the last three or four decades. Some make "wages" and better, while others take out little more than "grub" of uncovering a rich deposit keeps the majority cheerfully at work.

On the larger streams they drift down with the current in search of "better ground." Some employ log rafts, many of which are poorly constructed and often their occupants come to grief. Others use dugouts and roughly fashioned flat bottomed boats. Where the streams are not navigable even for small boats, prospectors resort to back-packing. One man set out, early in the spring, with a wheelbarrow, on which was loaded his rocker and other equipment.

His destination was 40 miles out. But he compromised on a likely looking bar seven miles distant. He has remained there all summer taking out fair wages.

### Reduce Wheat Acreage

Oklahoma Has A Plan To Limit Crop Production

A definite move to bring about a reduction in cotton and wheat acreage by limitation of planting and enforced rotation is under way in Oklahoma.

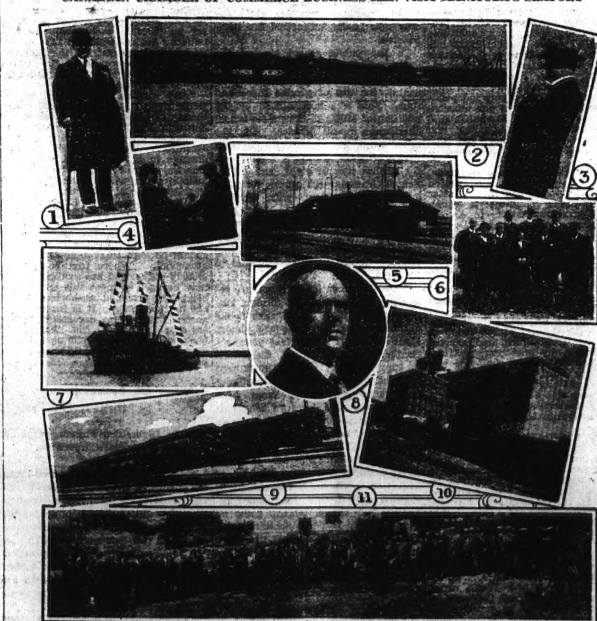

Representatives of wheat and cotton growing counties, meeting at the call of Governor W. H. Murray, agreed upon a plan to confine 1932 cotton acreage to one-third and wheat acreage to two-thirds of the state's tillable land.

The plan provides that farmers could not lawfully plant cotton on the same land two years in succession. Wheat could not be planted for more than three successive years on the same land.

"They say that he knows four languages and that at home he doesn't say a word." —Pages Gales, Yverdon.

### CANADIAN CHAMBER OF COMMERCE BUSINESS MEN VISIT MANITOBA'S SEAPORT

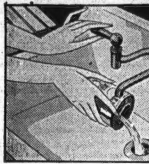

Some 300 leading figures in Canadian industrial and business life journeyed in three special Canadian National trains to Churchill early in September, under the auspices of the Canadian Chamber of Commerce. In earning the distinction of being the first organized party to visit Manitoba's seaport, they were witnesses to the inception of a venture which represents the hope and desire of the prairie provinces—the opening of a new trade route for the products of the West.

In the above are some of the prominent members of the party and other views presenting an appearance of stability at the northern port. 1. Dr. J. T. M. Anderson, Premier of Saskatchewan. 2. General view of Churchill. 3. Hon. D. G. McKenzie, Minister of Mines, Manitoba Government. 4. Senator Pat Burns, Calgary, extends a greeting to C. H. Wright, of Halifax. 5. Station at Churchill. 6. Delegates from the Maritime Provinces. 7. The party goes boating on Hudson Bay. 8. A. E. Warren, Vice-President, Canadian National Railways, Winnipeg. 9. Three special Canadian National trains which carried the party north. 10. New 2,500,000-bushel elevator at Churchill. 11. Canadian Chamber of Commerce party.

## GILLETT'S

Cleans SINKS

DRAINS and the  
TOILET BOWL

■ Full strength for Sink Drains

■ Full strength for the toilet bowl

■ In solution for all general cleaning

## GILLETT'S Lye "Eats Dirt"

## Flake Lye

★ Lye should never be dissolved in hot water.

USE full strength Gillett's Lye to keep all your drains clean and free-running.

A small quantity poured down your sinks and toilet bowl, each week, will rid them of all dirt accumulations and save you costly repair bills.

For all household cleaning, one tablespoon of Gillett's Lye dissolved in a gallon of cold water provides a safe solution for washing floors, tiling, refrigerators, etc.

The new FREE Gillett's Lye booklet describes many other ways this handy product can help you with your cleaning. Send for it.

## Danced on the DO-X

Germany Proves Great 'Plane Good As Ocean Liner

For the time being, her side satisfies our imagination. With a wing spread of 152 feet and a hull 131 feet long, twelve motors and two decks providing ample quarters for passengers and crew, it is possible for her to carry a pay load of from sixty to seventy passengers in addition to her crew of twelve. In one trial flight she actually carried 169 persons. As a final note on her amenities to an ocean liner, it is reported that the passengers en route to New York held a dance on board ship after leaving Hampton Roads.

The DO-X is an experiment and its mishaps may be attributed to this fact. It is still to be seen whether either this plane or others built like her can be regularly and profitably used in air transportation. In any event Germany has shown us what can be done with the dirigible in trans-Atlantic flying; she is now attempting to demonstrate the possibilities of giant airplanes.—New York Evening Post.

WORLD HAPPENINGS  
BRIEFLY TOLD

Twenty-two vessels, nearly all Diesel equipped, were launched in Japan in the first six months of this year.

Professor Edwin R. A. Seligman, internationally known economist of Columbia University, thinks the suspension of the gold standard by Great Britain will stimulate industry.

Miss H. D. Hobercker, for nine years leader of the Young Women's Christian Association in Nova Scotia, has been appointed national secretary of the Y.W.C.A. for Canada.

The memorial to those who lost their lives when the giant dirigible R-101 crashed in France last October, has been unveiled above the graves of the victims in Cardington churchyard.

Estimating a wheat average for the province of 16½ bushels per acre, a general crop report issued by the Alberta Wheat Pool places the Edmonton district above all sections with an average of 28 bushels to the acre.

Further discouragement to British migration to the Dominion appeared in an announcement from the Overseas Settlement Department that the special \$50 passage rate for British settlers to Canada was withdrawn October 1.

Assurance that the Dominion Government would assume 50 per cent. of the total cost of unemployment relief work in Alberta, including labour and material, has been announced by Hon. G. L. McPherson, Provincial Minister of Public Works.

Sir Howard Grubb, noted authority on astronomical instruments and builder of them, died recently in Dublin. Sir Howard has sometimes been credited with the invention of the submarine periscope and he made many developments on it.

**The Poor Man's Friend.**—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

## England's Speed Records

England's official speed records for air, land and water despite the unfortunate termination of the race at Detroit are as follows: Airplane—Squadron Leader A. H. Orlebar, 397.7 miles an hour, with a Supermarine Rolls-Royce S-6. Automobile—Malcolm Campbell, 246.066 miles an hour. Speedboat—Kaye Don, 110.223 miles an hour, with "Miss England II."

## SUNDAY SCHOOL LESSON

OCTOBER 4

## THE MACEDONIAN CALL

Golden Text: "Go ye therefore, and make disciples of all nations."—Matthew 28:19.

Lesson: Acts 15:36 to 16:15; Romans 15:18-21.

Devotional Reading: Hebrews 11:8, 10.

## Explanations and Comments

**The Two Great Workers Separate.** Acts 15:36-41.—Come and let us go back and visit the brothers in every town where we have proclaimed the word of the Lord. Let us see how they are doing. (Moffatt's Version.) said Paul to Barnabas, who had spent some time in Antioch of Syria after the return from the Council in Jerusalem. Barnabas was ready for another missionary tour, but he wished to try Mark again, while Paul would not take a man with whom who had deserted them in Pamphilya on their first tour. Unable to agree, the two apostles separated—Barnabas took Mark with him and sailed for Cyprus and here we part with great-hearted missionary, for there is no further record of his work. Paul chose Silas as his companion and they went by land through Syria and Cilicia strengthening the churches on the way.

**The separation of Paul and Barnabas** was highly conducive to the progress of the gospel. Each could now work with greater freedom. Barnabas would be delivered from a position in which he might from the increasing importance of Paul feel his own influence was diminishing; and Paul would free more thoroughly independent. Besides, instead of one mission now there were two: Barnabas and Mark labouring in one quarter, and Paul and Silas in another, and thus double work would be performed.—Glog.

**Timothy Chosen As a Companion.** Acts 16:1-5.—Paul and Silas visited Derbe and Lystra, and in the latter city Paul chose Timothy, a young man of good reputation, to accompany them on their journey. As they travelled from town to town they delivered to the churches the resolutions passed at the Council in Jerusalem. Everywhere the churches were strengthened in the faith (i.e., faith in Christ, as over against the idea of the works of the law) and increased in numbers.

**The Call To Europe.** Acts 16:9, 10.—Up to the time of Paul's vision at Troas, the Holy Spirit had exerted his influence by hindering, restraining. Then at Troas a challenge was set before Paul, he was called to make a new advance, in a vision at night there was a man of Macedonia standing, beseeching him, and saying: Come over into Macedonia and help me.

**Paul's Aim In His Work.** Romans 15:18-21.—From the moment when Ananias informed Paul that Christ counted him a chosen instrument to bear his name before the Gentiles, up until the hour when Paul addressed his letter to the Romans, he had visioned with increasing clearness that his task was "to make the Gentiles obedient to Christ." Christ had spoken through him, he writes, through his words and deeds, through the power of signs and wonders, through the power of the Holy Spirit. From Jerusalem and round about even unto Illyricum, on the west of Macedonia, he had, he proudly declares, "fully preached the gospel of Christ." This was Paul's glorying, his task was "to make the Gentiles obedient to Christ." He could point to his task and call it done, for as time and circumstances had permitted.

His special aim had been not to build upon another's foundation, but to preach Christ where he had not been named. In the words of Isaiah,

"They shall see, to whom no tidings of Him came,  
And they who have not heard shall understand."

Text Books  
In Schools

Few Changes Required By Departmental Regulations In Saskatchewan

Allegations that the Saskatchewan Department of Education has authorized radical changes in school text books involving needless expense to parents in these days of financial depression, are declared unfounded in a recent statement to the press, emanating from the Department. The statement asserts that the new curriculum recently adopted for public and high schools of the province, does not require the scrapping of old text books and the purchase of new. In fact, it is set forth that, pursuant to other instructions from Premier J. T. M. Anderson, as Minister of Education, pupils having access to old school books formerly authorized by the Department, are not required to purchase new ones.

The statement further shows that far from causing additional expense to parents, the new curriculum actually calls for a smaller expenditure on books than ever before. Certain text books have been eliminated, thus making savings possible, while the only new books authorized are inexpensive.

In the public school grades, the only new book to be authorized was the Congdon Music Primer (price 25 cents), for use of grades three and four. This was necessitated by the addition of Music to the public school curriculum in all grades. On the other hand, Elementary Composition (price 50 cents), formerly a text book for grades five to eight, and Public School Grammar (35 cents), formerly an alternative text with English Grammar in grades six to eight, both have been dropped, as no text book is authorized in this subject. Further, the cost of the Canadian Speller was reduced, this year, from 40 cents to 30 cents.

With the exception of literature selections in English and foreign languages, the high school text books authorized for this year are almost identical with those of last year, according to the statement. Selections in supplementary reading have been changed throughout, in compliance with earnest requests from high school teachers. Literature selections in grades nine and twelve have been changed for the same reason, while a few changes have been made in Latin, French and German prose. It is the usual practice for departments of education to change the selections in English and foreign languages annually, but the statement adds, no changes were made in Saskatchewan for 1930-31. The cost of literature and foreign language texts, it is pointed out, range from 15 to 50 cents. In grade twelve Biology, the

former text book being out of print, it was replaced, necessarily, by the revised edition. However, pupils having access to the old text are not required to purchase the new book.

## Free Distribution

Carrying the economies with regard to school text books further, the Department of Education has made arrangements with the Saskatchewan Teachers' Alliance for the collection of used text books, and their distribution, free of charge, amongst schools in the dried-out areas of the province. Where text books, previously authorized, are available, they may be used to meet the emergency says a statement issued by Premier Anderson covering this phase of the matter, which follows:

"The Department of Education has received many letters from all parts of the province, but particularly from the dried-out areas, requesting that pupils unable to purchase school books should be furnished with them by the Department. Arrangements have now been made with the executive of the Saskatchewan Teachers' Alliance whereby the latter undertakes to assist the department in taking care of cases of urgent need. The Alliance has welcomed the opportunity of sharing the responsibilities of the present situation.

"Through their 176 locals in the province, the Alliance will gather together at local points any discarded books available in their respective areas, at the same time they will ascertain from their members information regarding urgent cases. So far as possible each local will dispatch to needy schools in their district, the books to become the property of the school and not of individual pupils to whom they will be loaned for use.

"Any surplus will be sent to the Department of Education and where there are cases which the locals are unable to handle, the information will be sent to the department for attention. The department will undertake to distribute used books out of stock, and where the Alliance is unable to handle the local demands.

"The Department of Education has decided that no child should be kept out of school because of lack of books. Relief will be furnished as quickly as possible, but in the meantime children should be kept in regular attendance at school. Text books which have previously authorized are available, they may be used to meet this emergency condition, provided authorized books are not available. It is further suggested that, where necessary, teachers should arrange the sharing of books among their pupils as it is not essential that every child should possess a complete set."

## Solution Of Economic Distress On Prairies

Lies In Diversified Farming Opinion Of Financial Corporation

More diversified farming and limited raising of livestock, under a system of advisory farm management is the only solution for economic distress on the Canadian prairies, in the opinion of C. M. Bowman, president of the Colonization Finance Corporation. He has returned from a three weeks' tour of 125 western farms which are being operated under the supervision of the corporation.

The company was formed in 1929 when it was found mortgagors were failing in arrears of interest and tenants and purchasers under sale agreements were failing to meet their obligations.

Through its system, western farmers were slowly being shifted away from an all-wheat crop, he said.

Railroads of Argentina are fighting private trucking companies by establishing parallel truck lines.

LOST 30 lbs. FAT  
IN 3 MONTHS

AT THE AGE OF 40

"I was very stout, and I have taken Kruschen Salts for 3 months, and have lost about 30 lbs. to 182 lbs. (age 40). I am a hearty eater, and have never dieted in any way. Also I have never felt any ill effects whilst I have been taking Kruschen salts."—T. H.

"This is what Kruschen Salts does—it cleans out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape, and fills you with a vigor and tireless energy you'd almost forgotten had existed—you get the needed exercise. As a result, instead of plumping yourself in an easy chair every free moment and letting flabby fat accumulate, you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition."

## Champion Rabbit Catcher

Isaac Gough, of Gloucestershire, England, claims to be the champion rabbit catcher of Britain. He declared recently that he and his two sons had caught 52,243 rabbits between August and March. They have caught 1,500 in 10 days and 534 in one night. Mr. Gough makes so much money from trapping that he pays income tax and is proud of it.

Persian Balm promotes daintiness, charm and beauty. It is unrivaled in its magical effect on the skin. Swiftly absorbed by the tissues, it leaves never a vestige of stickiness. Delightfully cool to the skin. Stimulating to the system. Softens and makes the hands flawlessly white. Subtly fragrant. Imparts youth and loveliness to the countenance. Persian Balm is the inevitable choice of the woman who cares.

## Purchase Junkers' Plane

T. Siers, superintendent of maintenance for Canadian Airways (western division), is now in Germany to take delivery of a new Junkers plane for his company. The aircraft, known as the JU-52 type, is designed as a commercial air freighter and will carry a load of 6,000 pounds at a speed of a hundred miles an hour.

The Thousand Islands of the St. Lawrence are rivalled by the 1,500 islands along the waterfront of Rio de Janeiro.

CORN'S  
Lift off - No Pain.  
QUICK RELIEF

Just a drop or two of Putnam's on any sore corn and out comes all the pain. The corn shrivels up and drops. No scar, no pain, no pinching from tight shoes. No dance or walk in comfort. Use only Putnam's to treat corns. Satisfaction guaranteed. Sold by druggists everywhere.

PUTNAM'S

## WANT FURTHER FEDERAL AID FOR HIGHWAYS

Lucerne, Que.—The election of Hon. A. C. Stewart, Minister of Highways for Saskatchewan, as president of the Canadian Good Roads Association, lengthy discussion as to the part urban centres should bear in the maintenance of the country's highways; a review of the tourist traffic and its consequent "invisible export" of Canadian scenery and pleasures, and a debate on level crossings, featured an active closing day of the Association's 18th annual two-day convention here.

Further Federal aid for the construction of highways and the elimination of level crossings was recommended in resolutions adopted by the association.

Taxation for commercial vehicles should be much higher, S. W. Fairweather, director of the Bureau of Economics of the Canadian National Railways stated. He sounded a warning against the country plunging too deeply into highway expenditures without making adequate plans for a return on the investment.

While the efforts of the Board of Railway Commissioners had improved level crossings conditions, a total of 341 railway crossings accidents had occurred in 1930 in Canada, and a total of 115 lives and 475 injured had resulted, Hon. Frank Oliver, advisory officer to the Board of Railway Commissioners, stated.

Subways and tunnels have been built where feasible and financially possible, and highways diverted to avoid crossing the right-of-way, he said. The Dominion still had, however, some 28,000 level crossings from coast to coast.

W. G. Robertson, manager of the Ontario Motor League, disputed a remark by Mr. Oliver who concluded that Ontario held the leadership in reckless driving. Two other provinces had a higher accident rate than had Ontario, Mr. Robertson said. The number of cars in Ontario, its larger winter mileage, its many tourists and the province's 7,000 level crossings were among the factors contributing to Ontario's accident total.

Other officers elected were: Hon. W. R. Hibbs, Minister of Public Works, Newfoundland, first vice-president; Hon. R. W. Bruhn, Minister of Public Works, British Columbia, second vice-president; Hon. Leopold Micalley, Minister of Highways, Ontario, third vice-president.

New directors elected were: Hon. W. Finlayson, Minister of Lands, Forest and Northern Development, Ontario; Hon. Leonard MacNeil, Minister of Highways, Prince Edward Island; Mr. Justice Fullerton, Chairman of the Board of Railway Commissioners; Charles M. Black, President of the Royal Automobile Club of Canada, and J. L. Stewart, General Manager, Canadian Automobile Chamber of Commerce.

## Coal From China

### Protest Landing Of Cargo Is Made At Halifax

Halifax, N.S.—A protest against the landing of Chinese coal in Canada, was telegraphed to Rt. Hon. R. B. Bennett, Prime Minister, by Hon. W. A. Black, M.P., and Felix P. Quinn, M.P., Federal Members for this constituency.

The protest followed the announcement that a Norwegian freighter was on the way from Port Redon, French Indo-China, with a cargo of 4,000 tons of Chinese anthracite for sale in Nova Scotia and New Brunswick.

### Escapes From Ice

Point Barrow, Alaska.—The Hudson's Bay Company trading steamer, "Baychino," which for several days had been in danger of being crushed and beached, has escaped the clutches of the Arctic ice pack and headed southeast along the coast to safety.

### Hudson's Bay Chief In West

Winnipeg, Man.—With the object of obtaining first hand information about the business of the company, Major Patrick Ashley Cooper, new governor of the Hudson's Bay Company, is in Winnipeg conferring with local executives of the company.

W. N. U. 1909

## Plea For Independence

### Mahatma Gandhi Voices Strong Demand For Self-Government For India

London, England.—Two hundred members of all parties in the House of Commons sat in the historic grand committee room at Westminster while Mahatma Gandhi, Hindu Nationalist delegate to the Indian Round Table Conference, voiced the strongest demand he has yet made for Indian independence.

Squatting in his homespun cotton robes with a group of followers, Gandhi, in easy conversational tones and a gentle voice, declared he would be satisfied with nothing less than complete independence. Safeguards proposed in the draft constitution drawn up by the first conference—such as British control over Indian defence, foreign policy and finance—were unacceptable, he said. But India's complete independence would not exclude partnership with Britain on a basis of equality, he added.

"It will not accept the husks of independence, carrying with them safeguards and reservations," he said. "Rather would I declare myself a rebel . . . thousands of Nationalists have shed themselves of the fear of death."

Mr. Gandhi spoke for an hour and 45 minutes. Later, when questions were raised upon him by the members, his sense of humour won him sympathy. To one member who wanted to know what the word "mahatma" meant, Mr. Gandhi answered, "It means an insignificant person." The chairman explained the term meant "the embodiment of a great soul."

Among Gandhi's audience were Miss Megan Lloyd George, James A. de Rothschild and two members of the old Labour Cabinet, Rt. Hon. J. R. Clynes, and Rt. Hon. Tom Shaw.

## Many Returning To Britain

### More Inward Bound To Old Country Than Going Out

London, England.—For the first time in history—except during the war—more people are returning to Great Britain from the Dominions than are emigrating to them, the "Overseas Settler," organ of the Overseas Settlement Committee, points out.

During the year ending June 1931, there was an outward balance of settlers from Britain to the Dominions of only 200, and the outgoing persons exceeded returning ones only in the case of New Zealand. Figures from all the other Dominions showed an inward balance.

In the same period the total British emigration to all parts of the Empire was 38,000 compared with 80,000 in the preceding year.

And many Britons who settled in the United States since the war are returning to Britain, the "Overseas Settler" added.

### Armaments Trade

London, England.—The British attitude toward the Italian proposal for an armaments trade is a favourable one, Rt. Hon. Stanley Baldwin, acting head of the National Government in Premier Ramsay MacDonald's absence, told the House of Commons. Viscount Cecil of Chelwood, at Geneva, had been given instructions that he could agree to naval proposals subject to their acceptance by all other powers, Mr. Baldwin said.

### Scholar For Cramer Continues

London, England.—Hope that Parker D. Cramer, United States airman, who was lost on a flight from Detroit to Copenhagen, remains alive lingers. The British Broadcasting Corporation has appealed to ships in North Sea waters and residents of the barren Orkney and Shetland Islands to keep a sharp watch for Cramer and his radio operator, Oliver Paquette, as they might be on an uninhabited island.

### People Live Longer

Kansas City, Mo.—W. B. Jones, Pittsburgh, secretary-treasurer of the Association of American Cemetery Superintendents, said here that the depression had struck cemetery men as well as others. In times of depression, he declared, people eat and drink less, so live longer.

### Japan Withdraws Troops

Tokyo, Japan.—Japanese occupation of positions outside the south Manchurian railway zone has been halted, the foreign office announced, and withdrawal of troops is under way.

SKY ROCKET.

Travelling faster than man has ever done before is not fast enough for Flight Lieut. G. H. Stainforth (above), of the British Schneider Cup team, who recently averaged 36 miles an hour over a three kilometre course, and he will shortly attempt to establish a speed record which will stand for a number of years.

## Would Ship Wheat To China

### Proposal Made To Dispose Of Surplus Wheat On Credit

Victoria, B.C.—That Canada ship its surplus wheat to China and take a chance on receiving payment for it later, when China is in better financial shape, is the proposal advanced here by Hon. William Atkinson, Minister of Agriculture. Mr. Atkinson will discuss his plan with the Dominion Department of Agriculture shortly.

"We find in the world today," Mr. Atkinson said, in making public his proposal, "an appalling situation. The wheat producing nations, Canada particularly, are embarrassed by huge surpluses of wheat and yet in China, according to latest reports, millions will starve to death, during the coming winter."

"Apart from the moral aspect of the question which is important, it seems to me that this is an absurd position from an economic standpoint. That is to say, we can not use our wheat and it is doing us no good lying in elevators. If we could dispose of it, however—if we could get anything for it at all—we should clear the way for the sale of the next crop at least."

"The obvious thing, it seems to me, is to ship our surplus wheat to China and take China's note in return for it. We might be some time getting all our money, but we could not help being better off than we are now, with our grain choking the channels of business."

"Another important point, too, is that if we unloaded our wheat surplus in China now, we would create a keen appetite among the Chinese. We would be building up a huge potential market for our grain."

### Retrial In Kern Case

Moose Jaw, Sask.—Retrial of J. H. Kern, Sr., J. H. Kern, Jr., and D. K. Horne on charges of conspiracy to defraud was ordered in King's Bench when the jury brought in its final verdict of disagreement. The case will come up at the next jury sittings of King's Bench court in this city, next January.

## To Secure Evidence

### Raid Conducted In Ontario On Motion Picture Concerns

Toronto, Ont.—Books and papers of seven motion picture companies, named by Peter White, K.C., as being members of an illegal combine, were seized here in a raid conducted by a combined force of provincial and city police. The seizure followed an announcement by Hon. W. H. Price, Attorney-General of Ontario, that the province would prosecute several motion picture corporations in connection with the alleged combine.

Offices of the Canadian Paramount Corporation, Famous Players Canadian Corporation, the Bloom and Fine Theatres, Regal Films, Ltd., and Exhibitors Distributing Co., Ltd. were among those visited by police.

Seizure of the books and papers was merely carrying out necessary details in securing evidence in connection with the impending prosecutions, Col. R. H. Greer, K.C., who will conduct the prosecution for the province, explained. There were no objections raised to the seizures in any of the offices.

Prosecution is scheduled to commence October 5 at the fall criminal sittings, with several other provinces co-operating with Ontario in the action.

Indictments are at present in the course of preparation and counsel have been instructed to move at once to bring the cases before the assizes.

Both the provinces of Alberta and Saskatchewan will, it is understood, co-operate with Ontario in one set of prosecutions against the alleged combine.

Some 20 companies are affected by the action. All these were named by Commissioner White as parties to the combine.

## Japan Shaken By Severe Earthquake

### Houses Collapsed and Telegraph Lines Put Out Of Commission

Tokyo, Japan.—Mid-Japan has been shaken by another severe earthquake which caused 14 deaths and injuries to 60 in Saitama and Gumma prefectures alone.

In Saitama prefecture 150 houses collapsed, including the famous temple of Hikawa in Hamaoka.

Landlines interrupted rail travel on various lines and 17 telegraph and telephone trunk lines were put out of commission, cutting off communication with Kobe, Dairen, Kumanoto and Hakodati.

Sismologists said the quake was the most severe this year.

## Children Perish In Fire

### Six Burned To Death When Farm House Destroyed

Hague, Sask.—Six of the nine children of Mr. and Mrs. John P. Urhu, of Hague, Sask., were burned to death when their farm home was destroyed by fire. Three of the children managed to escape from an upstairs window, but apparently the fire had overcome the others, who ranged from one year and ten months to 13 years of age.

The bodies of the six little victims were practically reduced to ashes. Four of the children had apparently huddled together as their remains were discovered in a heap while another was found at one side and the baby had been burned to death in her bed.

## Who Said Depression?

A strong indication that times after all, are not as bad as they might be was recently given at Fergus, Ont., when a train of 27 cars pulled out of the Canadian Pacific Railway Station, carrying products of Beauty Bros. Limited, manufacturers of electric washing machinery. With all the talk about "produced in Canada goods" and employment for Canadians, the event, which has become one of the town's regular events of recent years, was this year vested with special interest and the employees of the plant and the townsfolk in general turned out to cheer the train as it sped away to distribute its freight from coast to coast throughout the Dominion.

## GENERAL SMUTS PICTURES A NEW ERA OF SCIENCE

London, England.—A tremendous ovation was accorded General the Rt. Hon. Jan. C. Smuts as he entered the Central Hall at Westminster to deliver his presidential address, opening the centenary meeting of the British Association for the Advancement of Science. General Smuts, distinguished South African soldier, statesman and scholar, was accompanied by several renowned past presidents.

The hall was filled to capacity and three overflow halls were also jammed as General Smuts furnished a "Scientific world picture of today" in which he set the keynote for one of the greatest gatherings of scientists the world has ever seen.

General Smuts saw a new era of science which scraps materialism and may surpass religion in ethical uplift. He showed how recent scientific discoveries point to evidence the material objects recognized by man's senses are in their origins as immaterial as thought or mind, and that both materials and thought seem to go back to some principle of self-pondering, understood unity, which he named "holism."

"The new concept has made it possible to construe matter, mass and energy as but definite measurable conditions of the curvature of space-time," General Smuts declared. "We may say that matter and energy have disappeared as independent entities and will have become mere configurations in space-time."

"The space-time world, however novel, however shocking to common sense, is not in conflict with reason. Indeed, the space-time world is largely a discovery of mathematical reason and is an entirely rational world."

But in the new scientific drive General Smuts said it recognized the world consists not only of electrons and radiations, but also of souls and aspirations. Beauty and holiness are seen as much aspects of nature as energy and entropy. "We seem to have reached a new era of scientific physical world into a twilight where prophecies and metaphysics meet; where space-time does not exist and where strictly causal law in the old sense does not apply."

"It is not merely that science is perhaps the clearest revelation of God to our age," General Smuts also told his great audience. "While religion, art, and science are still separate values they may not always remain such. A serious lag has already developed between our rapid scientific advance and our stationary ethical advance, a lag which has already found expression in the greatest tragedy in history."

"Science itself must help to close this dangerous gap in our civilization which threatens the disruption of our civilization and the decay of our species. Its final and perhaps most important task may be found just here. Science may be called upon to become the most effective drive toward ethical values and in that way render its most priceless human service. In saying this I am going beyond the scope of science as at present understood."

"The ancient spiritual goods and heroisms of our race need not be ruthlessly scrapped. The great values and ideals retain their unfading glory and derive new interest and force from a cosmic setting."

### British Motion Pictures

Toronto, Ont.—Wider distribution in Canada of produced-in-Britain moving pictures is promised by N. L. Nathanson, recently returned from a two-months' tour of England. Mr. Nathanson was not prepared to announce he had completed any arrangement with British production companies, but he indicated the probability that his organization would effect a closer alliance with British producers.

### May Have Winter Train Service

The Pas, Man.—Churchill this year will be linked with the outside world by a train service throughout the winter. It was learned unofficially here, that last week over the frozen tundra that stretches along the 500-mile bay line from here to the new bay port, engines will plow through the snow to bring mail and supplies to the few that will remain at Churchill throughout the winter.

## We Noticed on Monday:

Bill Comisarow hanging up the big posters for the Moose dance. Jac Mayer motoring down the main stem with his red-wheeled Chevy.

Hugh Campbell hiking over to the town hall, to toll the Mitsu bell.

Phrenologist Mike examining the bumps on the road way opposite the Printshop.

Katzenjammer No. 2 coming down the P. O. steps, reading a postcard from "Bert."

## Before the P. M.

At the local Court Monday Mr John Sinner appeared before the bench, charged under the Master & Servants Act with refusing to pay wages. The case was dismissed when it was shown that complainant had signed a receipt for "payment in full" when Mr Sinner settled with him for work done.

## Regina Grain Fair, 1932.

A number of farmers of the Salmon Arm (B. C.) district are preparing to exhibit at the World's Grain Exhibition & Conference at Regina next year. In addition, the district will be represented in the junior grain judging competition. Plans are being laid for the holding of elimination contests among junior teams this Fall.

## Open Seasons for Game.

Ducks and Geese—Sept 15 to Nov 14th.  
Hungarian Partridge—Oct 1 to Nov. 15.  
Sharp-tailed Grouse—Oct. 1-15.  
Pheasant—No open season  
Deer—Nov 1 to Dec 14.  
Otter, Nov. 1 to May 1.  
Beaver, No Open Season.  
Muskrat—Between North Saskatchewan and Tp. 91, Feb. 15 to April 15

## To All Concerned :

Having arranged separation papers satisfactory to all parties, I Raymond A. Zerber, hereby give notice that from this date, 2d Sept 1931, will not be responsible for any debts made by my wife, Noble M. Zerber.

(Signed) Raymond A. Zerber.

## WHY SUFFER FROM HEADACHES,

Pain in and around the Eyes? The right glasses fitted to your eyes will surely relieve you and give you comfort.

Glasses furnished Free. Fifteen dollars examination fee. That is far cheaper than paying \$3 to \$10 for an examination and then glasses at \$12 to \$15; but you cannot see the logic of this; you need more than glasses.

## M. M. Mecklenburg,

41 Years' Experience,  
28 years in Western Canada.  
10170 101st St., Edmonton.

## Stony Plain Rifle Club.

The usual Fall shoot of the Stony Plain Rifle club will be held Monday Oct 26. Thanksgiving day falling earlier than usual this year, it was felt that as many of the members would be busy at threshing about that time, it would be more convenient for everyone if the shoot were held at a later date.

All members are requested to be on hand at 10 a. m. Practice shooting must be completed by 11 a. m.

Entrance fee for the day will be \$1, including lunches.

In the individual shoot, members will be divided into 3 classes; there will also be a class for boys. The prizes in the different classes will be the same, so that every one will have the same chance, whether they be good, bad or indifferent shots. Range of fees for the day: Sergt Maj. MacDonald, B G Powell. Executive committee: Col. Bowen, M McKinlay, L Zilliox.

Provided the weather man is good to us, we expect a record attendance, and a real day's enjoyment should be the result. Provision is being made for a special lunch this year.

## Big Potato Crop, Prices Low

From 20,000 acres in this province north of the Red Deer, there is estimated to be a potato yield averaging 183 bu. to the acre, or a total of 3,750,000 bu. It has been a long, favorable growing season and potatoes are large in size and heavy in yield.

Prices are not yet established, but buyers in Edmonton figure that there will be ample offerings at \$5 per ton at the car, buyers providing sacks. British Columbia has a surplus, but low prices have practically put an end to any shipments beyond its borders.

The Alberta Department of Agriculture has been keeping in touch with the Saskatchewan Government, as the latter is expected to buy at least 100 carloads for relief purposes.

Potato hauling to Stony Plain has not set in, as yet, where the average price being paid for spuds is around 20 cents per bushel for wagon lots.

## A Home in the Country

Rev R Berk, at one time a pastor of Glory Hills Reform church, but now pastor of the church at Sutton, Nebraska, has that desirable plot of land one mile west of the church, on the market at present. This plot comprises some 29 acres about three miles north of town, and has on it an 8 roomed house and other buildings, suitable for a country residence or chicken farm; there is a creek running thru the plot. The price is very reasonable, even for the hard times. See John A Willie, at Stony Plain.

## Church Services.

German Lutheran services will be held in Stony Plain next Sunday at 2.30 p. m.

United Church service every Sunday Evg. at 7.30.

There will be Gospel services every Sunday at 7.30 p.m. at Muir Lake Community Hall.

## Stony Plain and District

Mr and Mrs Pidgeon moved over to the house on 3d street recently vacated by Mr Hyett.

Mr and Mrs James Mosely made a week-end motor trip from Rimbey, to visit with Mr and Mrs Dan Gitzel.

The Lory motor party, which has been spending a vacation at Victoria and Vancouver, expect to start on their return trip today.

Mr Johnston, the courteous meter reader for the Calgary Power Co., has been transferred to another district, his place being taken on this line by Mr Phillips.

The Town Council meets tonight.

On Sunday, Oct. 4, at 7 p. m. the Sunday School Rally Day service of the United Church will be held. All welcome.

Stony Plain Moose Lodge is putting on a dance at their hall on Thanksgiving Night, Monday Oct. 12.

Secretary Pidgeon has received a letter from the Association of Municipal Districts, enclosing a copy of the proposed new Noxious Weeds Act.

## Driver Dixon Remanded.

At the opening of the Supreme Criminal Court, in Edmonton on Monday Milton Dixon, charged with manslaughter in connection with the death of Roy Kilpatrick in an automobile crash on the Stony Plain road, obtained a remand to the November Assizes when he pleaded that Mrs Ferguson, also injured in the crash, was still in the hospital. Dixon pleaded thru counsel that she was a material witness in his defence, and was remanded to Nov. 2.

## Spruce Grove News

Mr Johnson has made a fine job of redecorating the interior of the Grove Hotel, and will shortly start on the restaurant interior.

Mr Romeo Rivest is moving his household goods from the farm, this week, to the Ulmer cottage, on Second St. This move has been necessitated by the increased patronage at Mr Rivest's auto repair shop, next to Sherwin's Hardware.

The outcome of the Brox-McLaughlin lawsuit is awaited with interest by those in this district. It was expected the case would be on the docket at the first fall sittings of the Supreme Criminal court which opened in Edmonton on Monday.

Among the first to have their crop threshed hereabouts was Mr Jac Brox, when the Schram outfit opened up on his farm on Friday.

Mr John Maloney, who has taken over the local hotel, moved out last week to his new quarters here. John was formerly the popular manager at the Empress hotel, in Edmonton.

## Railway Time Table

Going East—Every morning at 6.23. Mon., Wed. & Fri. morning at 7.01.

Going West—Sun., Tues., & Fri. nights at 10.31. Every mid-night at 24.13.

# the old country for Christmas

**YOU** can go home for Christmas NOW, even if the money you have set aside is less than you thought necessary. Fares on the luxurious Canadian Pacific Steamships are specially reduced, yet the comfort, service and cuisine is the same as before. Living costs are lower than they have been for years. You can go now for much less money.

Sails will regularly and frequently each week. Last-minute special sailings to get you to the Old Country for Christmas are:

From Saint John:	
Montclair	December 5
Duchess of Bedford	December 11
Montrose	December 12
Duchess of Richmond	December 16

Don't miss this money-saving opportunity to have the trip of a lifetime via "The World's Greatest Travel System."

### THE HOUSE OF DREAMS-COME-TRUE

— BY —  
MARGARET FEEDLER  
Author of  
"The Splendid Polly," "The Hermit of Far East,"  
Hodder & Stoughton, Ltd., London.

#### CHAPTER I.—Continued.

"Staple? Is that the Brennans' place?"  
"God bless my soul, no! The Tormarins acquired it when they came pushing over to England with the Conqueror. I imagine, Anne married twice, you know. Her first husband Tormarin, led her a dog's life, and after his death she married Claude Brennan—son of a junior branch of the Brennans. Now she is a widow for the second time."

*She Suffers So—Unnecessarily!*

### Nearly Nervous Prostration

**D**O you know her... this poor woman who wakes up, her head aching, her nerves ragged? How many young women are working "on their nerve" because female weakness has robbed them of strength and health?

If they would only try Lydia E. Pinkham's Vegetable Compound. It strengthens by its tonic action, brings soothing, comforting relief. Get a bottle of the liquid from your druggist today. Or try it in the new convenient tablet form.

**Lydia E. Pinkham's**  
**VEGETABLE COMPOUND**

W. N. U. 1909

strained upwards, piercing the mass of drifting cloud, whilst below lay a world shrouded in snow, the long reach of dazzling purity broken only where the pine-woods etched black trunks against the whiteness and the steely gleam of a frozen lake showed like a broad blade drawn from a white velvet scabbard.

It had been part of Peterson's expressed programme that, before going their separate ways, he and Jean should make a brief stay at Mont-tavan, there to await Lady Anne Brennan's answer to his letter. Jean had divined in this determination an excuse, covering his need to take farewell of that grave on the lonely mountain-side before he set out upon the solitary journey which could not fail to hold poignant memories of other, former wanderings—wanderings invested with the exultant joy of sharing each adventure with a beloved fellow-wayfarer.

Instinctively, though Jean had recognized the desire at the back of Glyn's decision to stop at Mont-tavan, she was scrupulously careful not to let him guess her recognition. She took her cue from his own demeanour, which was outwardly that of a man merely travelling for pleasure, and she listened with a grim smile of amusement when poor Monsieur Vautrinot, the Maître d'Hotel, recognizing Peterson as a former client, sympathetically recalled the sad circumstances of his previous trip and was roundly snubbed for his pains.

To Jean the loss of her mother had meant far less than it would have meant to a girl in more commonplace circumstances. It was true that Jacqueline had shown herself all that was kindest and generous in her genuine wish to compass the girl's happiness, and that Jean had been frankly fond of her and attracted to her, but in no sense of the words had there been any interpretation of a maternal or filial relationship. Of course I know I'm a quite superfluous third at Beinfels, but all the same, you two really do make the most perfect host and hostess, and you try awfully hard not to let me feel de trop."

But, despite the fact that Jacqueline had represented little more to her daughter than a brilliant and delightful personality, with whom circumstances happened to have brought her into contact, Jean was conscious of a sudden thrill of pain as her glance travelled across the wide stretches of snow and came at last to rest on the shoulder of a hill. She was moved by an immense consciousness of loss—not just the mere sense of bereavement which the circumstances would naturally have engendered, but something more absolute—a sense of all the exquisite maternal element which she had missed in the woman who was dead.

And then came recognition of the uselessness of such regret. Nothing could have made Jacqueline other than she was—one of the world's great lovers. Mated to the man she loved, she asked nothing more of Nature, nor had she herself anything more to give. And the same reasoning, though perhaps in a less degree, could be applied to Peterson's own attitude of detachment towards his daughter; although Jean was intuitively aware that she had come to mean much more to him since her mother's death, even though it might be, perhaps, only because she represented a tangible link with his past happiness.

Thrusting aside the oppression of thought conjured up by her glimpse of that quiet God's Acre, set high up among the hills, she turned abruptly from the window and made her way downstairs to the hotel vestibule.

Here she discovered that Peterson had been claimed by some acquaintances. The encounter was obviously not of his own choosing, for, to Jean's experienced eyes, his face bore the slightly restive expression common to it when circumstances had momentarily got the better of him.

His companions were a somewhat elaborate little Frenchman of fifty or thereabouts, with an unmistakable air of breeding about him, and a stately-looking woman some fifteen years younger, whose warm brunette colouring and swift, mobile gesture proclaimed her of Latin blood. All three were conversing in French.

"Ah! Le vieux qui vient!" Peterson turned as Jean approached, his quick exclamation tinged with relief. Still in French, which both he and Jean spoke as fluently and with as little accent as English, he continued rapidly: "Jean, let me present you to Madame la Comtesse de Varigny."

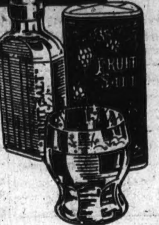

## ENO'S FRUIT SALT

### Mothers! Don't Risk Their Health With Violent Purgatives

Constipation is one of childhood's greatest enemies. Unless the intestinal system is kept clear and clean ill health is almost sure to follow.

But severe acting laxatives are dangerous. The bodily system of child or adult is not meant to withstand the unnatural, forcing action caused by ordinary, cheap cathartics.

ENO'S "Fruit Salt" in a glass of water, every morning is the safest, surest and most pleasant way to inner cleanliness and perfect health.

The girl found herself looking straight into a pair of eyes of that peculiarly opaque, dense brown common to Southern races. They were heavily fringed with long black lashes, giving them a furtively soft and disarming expression, yet Jean was vaguely conscious that their real expression held something secret and implacable, almost repellent, an impression strengthened by the virile, strongly-marked black brows that lay so close above them.

For the rest, Madame de Varigny was undeniably a beautiful woman, her blue-black, rather coarse hair framing an oval face, extraordinarily attractive in contour, with somewhat high cheek bones and a clever, flexible mouth.

Jean's first instinctive feeling was one of distaste. In spite of her knowledge that Varigny was one of the oldest names in France, the Countess struck her as partaking a little of the adventures—of the type of woman of no particular birth who has climbed by her wits—and she wondered what position she had occupied prior to her marriage.

She was sharply recalled from her thoughts to find that Madame de Varigny was introducing the little middle-aged Frenchman to her as her husband, and immediately she spoke Jean felt her suspicious nodding away beneath the warm, caressing cadences of an unusually beautiful voice. Such a voice was a straight passport to the heart. It seemed to clothe even the prosaic little Count in an almost

romantic atmosphere of tender charm, an effect which he speedily dispelled by giving a Jean a full, true, and particular account of the various pulmonary symptoms which annually induced him to seek the high, dry air of Mont-tavan.

(To Be Continued.)

### Little Helps For This Week

"The Lord is my shepherd; therefore I can lack nothing."—Psalmist. So whether on the hillsides high and fair I dwell, or in the sunless valleys where The shadows lie, what matter? He is there.

And more than this: wherever the pathway lead, He gives to me no helpless, broken need. Bp't His own hand, sufficient for my need.

So where He leads me I can safely go. And in the best hereafter I shall know Why in His wisdom He hath led me so.

—Henry H. Barry.

He is a strict but tender Master; and on the way which He leads us are not only crosses and thorns, but light, and love, and sympathy, and peace, and at the end—Heaven.—M. K. Vincent.

Smallpox was unknown in America before white men came.

## HEADACHE

Nerves on edge. A head that throbs. You can't stop work, but you can stop the pain—in a hurry. Aspirin will do it every time. Take two or three tablets in a swallow of water, and you're soon comfortable. There's nothing half-way about the action of Aspirin. You will always get complete relief when you take these tablets.

These tablets should be in every shop, office, and home. Ready to relieve any sudden ache or pain, from a grumbling tooth to lumbago. Don't suffer with that neuralgia,

neuritis, rheumatism, etc.; or lose any time because of cold or sore throat. Get some Aspirin and just follow those proven directions for instant relief.

Aspirin tablets cost very little, especially if you buy them by the bottle. Any doctor will tell you they are harmless. They don't hurt the heart. They don't upset the stomach. So take them as often as you have the least need of their quick comfort. Take enough for complete results. On sale at drug stores everywhere. Made in Canada.

**ASPIRIN**  
(TRADE-MARK REG.)

### Stony Plain's W. I.

On Wednesday next, Oct. 7th, the Women's Institute of Stony Plain will hold its regular monthly meeting, at the home of Mrs. Fred Willie. The hostesses will be Mrs. I. I. Peters and Mrs. I. Umbach. A paper on "Canadian Authors and Poets since 1820" will be given by Mrs. W. E. H. Lewis. Roll Call, book for library.

### The Unwarranted Spread.

Alarmed at the unprecedented spread of 10c a bu. between No. 1 and No. 3 wheat, taking the present low prices into consideration, the Vermilion chamber of commerce last week passed a resolution calling upon the Federal Government to institute an investigation into the situation to the end that the interests of farmers are protected to the fullest extent.

### Plant a Peony!

So this is Peony Day, Thurs. Oct. 1. Constant reminders have kept the date before us for the past few weeks. The Provincial Town Planning board, following a suggestion from the U. F. W. A., has sponsored the movement to make Alberta peony conscious. As a result of the publicity given last Fall, it is stated that several thousand tubers were planted. The secretary of the Town Planning Board expresses the hope that this year there will be an even greater response.

### Brightbank News

Threshing is now in full swing in this district, and good yields are reported. J. McDonald has a quantity of Redward wheat which will grade No. 1 Northern.

Mrs. T. Hasse, who has been receiving treatment at Royal Alexander hospital, is expected to be able to return home in a short time.

Mr. A. Badke had recovered sufficiently to be able to return home last week from an Edmonton hospital.

Miss Olive Jamieson is preparing for a trip to Vancouver, B. C., in the near future. She will also visit Banff.

The Bright Bank Athletic club tried out a new sport at their recent entertainment—a piano moving contest, which was enjoyed by all. Messrs A. Kreye and M. Mickelson won first prize, and Messrs Pete Sutherland and E. Zahn were 2d. An old organ was used in place of a piano.

Owing to the wonderful ability of the local school board, property which had been removed from the new school on Saturday evening was found and returned very quickly. Every one in the district congratulates the board for the efficient way in which they worked.

Mr. Claude Taylor had the misfortune of turning his separator over last week, causing a few days' delay.

Mr. and Mrs. George Griesbach are expected home shortly from a honeymoon spent in the South.

Mr. Fred Kreye purchased a new McCormick-Deering engine recently.

Just as Mr. Karl Grosskopf was getting his team of colts trained so he could pass an auto without having an accident, an aeroplane sailed overhead, scaring the team so badly that they bolted, breaking the democrat pole and giving Karl a good shaking up.

Preparations are now under way for the big Stampede and Bronco Busting Exhibition to be given in this district on Monday, Oct. twelfth. Quite a large number of entries have already been made.

### Farmers' Shooting Limited

Judging from what has been brought to the attention of the local Game Guardian, farmers in some of the nearby district appear to be laboring under some misunderstanding. Some farmers think they are allowed to shoot on any land without a license because they are farmers. Any farmer wishing to shoot on land other than his own must obtain a regular game license. The alternative is a fine up to \$15 and costs.

### Sheep and Hogs Show.

Price list and rules covering Edmonton's fall sale and show of sheep and the sale of hogs have now been issued. These events are scheduled for Tues. and Wed. Oct. 20-22, and will be held at Fair Grounds, the Exhibition Ass'n being in co-operation with Alberta Provincial Sheep Breeders and Alberta Provincial Hog Breeders' associations in conducting the affairs.

### Wheat Bonus Not in Favor.

The 5c bonus on wheat is not the best form of relief to give all farmers, according to the feeling among members of the U. F. A.

The U. F. A. vice president N. F. Priestley, has stated that a number of farmers did not favor the 5c bonus "because it assists those who have most to sell but does nothing for those whose crops have been hailed out or dried out."

Cullholme U. F. A. Local is asking the Government to pay the farmer \$1 per acre for the 1930-31 crops as a temporary measure to assist the producers in unfortunate districts.

### United Grain Growers Ltd.

Mr. R. S. Law, President of the United Grain Growers Limited, announced at the conclusion of a meeting of the Board of Directors of the United Grain Growers Limited that a Dividend of five per cent has been declared on the Capital Stock of the Company, for the financial year July 31st, 1931. Checks have been mailed to the 30,000 shareholders of the Company.

The accounts for the past year are still in the hands of the Auditors, and are not yet ready for publication, but it is intimated that the balance sheet will show a strong liquid position and that the earnings for the year, after Bond Interest and Depreciation, were sufficient to justify the payment of a dividend.

While a reduction in grain handling during the current crop year is considered inevitable on account of the small crop produced in Western Canada, United Grain Growers elevators are fairly well located with respect to those districts in Western Canada which have from fair to good crops this year, and there are comparatively few Elevators of the Company in those districts which have experienced complete crop failure.

It is also stated that a release of farmers from contracts to market grain thru other channels is resulting this year in an increased percentage of deliveries to United Grain Growers elevators at a large number of points. United Grain Growers now have 466 country elevators in Manitoba, Saskatchewan and Alberta; a terminal elevator at Port Arthur with a capacity of 5,500,000 bu.; a terminal elevator at Vancouver with a capacity of 1,000,000 bu. One of the most important developments of the past fiscal year was the re-entry of the Company into the business of exporting grain, which had been temporarily discontinued.

**EVERY FARMER** in Western Canada is now free to sell his grain on the open market. Thousands of former customers again look to United Grain Growers to handle their grain.

**UNITED GRAIN GROWERS** seeks the business of farmers on its long record of satisfactory service, on its financial strength, on its twenty-five years of successful experience in selling farmers' grain on the open market. The open market experience of this farmers' company, taking volume and length of service together, is quite unmatched in Western Canada.

Assure yourself of safety and good service by delivering your grain to a U.G.G. elevator or consigning it to United Grain Growers Limited.
